

Receive 25% off your first processing for both you and your veterinarian!

MediVet ACS

BEYOND IRAP®: A SYSTEMIC APPROACH TO PAIN AND INFLAMMATION MANAGEMENT

No matter your discipline, your performance horse is an athlete.

Athletes are prone to injuries; they need proper recovery time after exercise, and they require careful maintenance. And there's only one regenerative therapy that can aid in all three. **Repair, Recover, and Maintain with MediVet Autologous Conditioned Serum (ACS).**

MediVet ACS is a patented regenerative therapy that blocks and terminates the inflammatory response in the body. With up to 50 doses yielded, MediVet ACS allows for a **systemic approach in treating inflammation - exactly where your horse needs it most!**

MediVet Equine's patented process goes well beyond any other autologous therapy, resulting in the most potent anti-inflammatory effect available anywhere!
