**FERGUS AND THE
GREENER GRASS**

By Jean Abernethy
40 pages, hardcover,
Trafalgar Square
Books; 2017, \$15.95

Fergus is back again with another adventure and a valuable lesson! Abernethy hilariously tells the story of Fergus' journey to see if the grass truly is greener beyond his treasured meadow. Bright, eye-catching illustrations accompany the tale of this beloved horse's antics as he learns that the best things in life are worth trying to reach.

BOTTOM LINE:

All ages can appreciate this fun Fergus story!

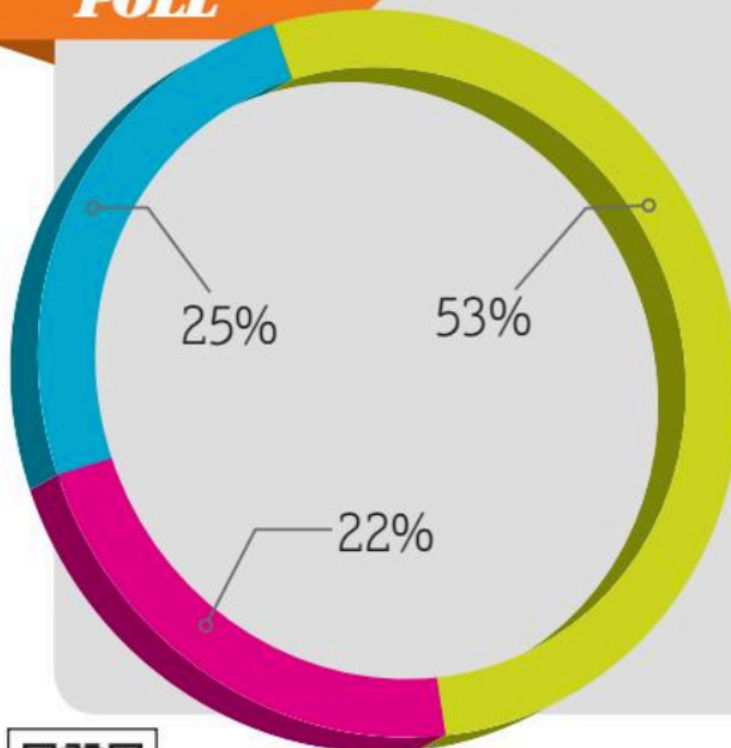

US EQUESTRIAN + BARNMANAGER

The United States Equestrian Federation (US Equestrian) announced that innovative equestrian software, BarnManager, has become the Official Barn Management Software of US Equestrian. BarnManager is a cloud-based software that aims to help horse owners and barn managers keep track of virtually all aspects of horse care, as well as the business side of their equine operation, with features including horse information and health data recording, barn-wide messaging, scheduling, and more!

"Many of our US Equestrian members own and run their own equine-related businesses," said US Equestrian CEO, Bill Moroney. "Our partnership with BarnManager will give these business owners an additional tool to assist in running their business."
