

PALM BEACH EQUINE CLINIC: Providing World-Class Care to Wellington Equine Athletes

“Palm Beach Equine Clinic has been a huge part of the ‘success’ I have had with all of my horses. They are always there when I need them, whether I’m headed to the clinic in Wellington, or they are coming to me. It’s nice to be able to know your vet will be there for you whenever you need them.”

Palm Beach Equine Clinic (PBEC) returns as the Official Veterinarian of the Winter Equestrian Festival (WEF) and Adequan® Global Dressage Festival (AGDF) for the 2024 show season. The veterinarians of Palm Beach Equine Clinic will be on-site at both showgrounds to provide excellent care to all of the competing sport horses plus those in the surrounding Wellington area.

Palm Beach Equine Clinic has an extensive team of more than 30 veterinarians offering a wide variety of services and remedies including internal medicine, emergency care, reproduction and fertility, alternative medicine,

regenerative medicine, dentistry, podiatry, and more. From sport horse evaluations to non-traditional alternative medicine therapies such as equine medical manipulation and acupuncture, Palm Beach Equine Clinic veterinarians

think outside of the box to prevent and treat injuries.

The modern medical imaging modalities at Palm Beach Equine Clinic allow veterinarians to gather all the information they need to make a timely diagnosis and are available for all equine patients, even if their primary

veterinarian is not at Palm Beach Equine Clinic. New for 2024, Palm Beach Equine Clinic is equipped with a Canon Aquilion LB Exceed computed tomography (CT) scanner, which combines exceptional image quality with the versatility needed for veterinary medicine. The entire scanning unit, also known as the gantry, moves around the patient, and the system can be elevated to scan the head and neck or lowered to scan the distal limbs of a standing horse.

“I can’t even count the number of people that I have recommended Palm Beach Equine Clinic to. Everyone was really great, and there was excellent communication with me through every step of my horse’s surgery and recovery.”

“We are very excited to bring this world-class technology to Wellington and provide an incomparable service to horse owners in the area,” said PBEC President Dr. Scott Swerdlin. “Our new CT scanner will allow us to more accurately diagnose injuries in every part of a horse’s body, all while making it easy and stress-free for them. We also encourage referring vets to

“All the veterinarians there are extremely collaborative. Most veterinarians get very possessive in a way that makes them single-minded, but I think it’s important to be open to different perspectives and be creative, and all of the veterinarians at Palm Beach Equine have been like that for me. Managing sport horses is a bit of an art form, and I think they all understand sport horses a lot more than most veterinarians do.”

PBEC to use this as a part of their practice.”

PBEC wants to be a part of your team, providing the best care for your horses. Top athletes in all disciplines have worked with the veterinarians at PBEC and praise the work that they do to keep their horses comfortable and ready for top sport.

Palm Beach Equine Clinic has provided the highest quality of equine health

care for more than 40 years.
