# KEEP YOUR SPORT HORSE AT THE HEIGHT OF HEALTH With Palm Beach Equine Clinic

**“The team at PBEC went above and beyond to care for my horse. They were all extremely professional and kept me informed every step of the way. I visited a lot and was always greeted by a tech and given an update. I really appreciated the care and attention my horse received during her stay at PBEC.”**

Palm Beach Equine Clinic, the Official Veterinarian of the Winter Equestrian Festival (WEF), is ready to keep your horse at the height of health. With veterinarians on-site at WEF every day of the horse show, Palm Beach Equine Clinic provides excellent care to all of the competing sport horses plus those in the surrounding Wellington area. Whether it's routine care and health papers, emergency services, or

working with your current veterinarian for imaging or diagnosis, Palm Beach Equine Clinic can make

sure your horse performs its best this season.

Palm Beach Equine Clinic has an extensive team of

more than 30 veterinarians offering a wide variety of services and remedies including internal medicine, emergency care, reproduction and fertility, alternative medicine, regenerative medicine, dentistry, podiatry, and more. From sport horse evaluations to non-traditional alternative medicine therapies such as equine medical manipulation and acupuncture, Palm Beach Equine Clinic veterinarians think outside of the box to prevent and treat injuries.

What sets apart Palm Beach Equine Clinic from every other veterinary service in South Florida is the range of modern medical imaging modalities and the board-certified veterinarians who work with them. The imaging services allow veterinarians to gather all the information they need to make a timely diagnosis and are available for all equine patients, even if their primary veterinarian is not at Palm Beach Equine Clinic.

Palm Beach Equine Clinic is the only South Florida clinic equipped with a Canon Aquilion LB Exceed computed tomography (CT) scanner, which combines exceptional image quality with the versatility needed for veterinary medicine. The entire scanning unit moves around the patient, and the system can be elevated to scan the head and neck or lowered to scan the distal limbs of a standing horse. This helps veterinarians

**“I am forever grateful for Dr. Marqués and Palm Beach Equine Clinic. They have given me my horse back, and we have made memories that would never have been possible without them! I feel so lucky to have Dr. Marqués on my team and to call him our veterinarian.”**

pinpoint the exact issue and can even help guide them if surgery is needed.

“With the incredible number of top sport horses in our area, this world-class technology was imperative,” said PBEC President Dr. Scott Swerdlin. “We made the investment to add the Canon CT scanner at Palm Beach Equine Clinic and feel it is a vital part of what we can offer horses and clients in order to help them achieve peak performance. We encourage referring vets to PBEC to use this as a part of their practice.”

PBEC wants to be a part of your team providing the best care for your horses. Top athletes in all disciplines

have worked with the veterinarians at PBEC and praise the work that they do to keep their horses comfortable and ready for top sport.

Palm Beach Equine Clinic has provided the highest quality of equine health care for more than 40 years. With a world-class facility, state-of-the-art technology, and great compassion for the horses, Palm Beach Equine Clinic is committed to providing the best possible service for both patients and owners.
